

## Mainstay Engineering Group

## LEED – U.S. Green Building Council

Mainstay Engineering Group has provided outstanding civil and structural engineering design services for years. Now we also provide that same expertise with LEED Certification. Mainstay's certified personnel provide U.S. Green Building Council LEED experience to designers, builders, operators and owners who want to build green and maximize both economic and environmental performance. Mainstay addresses LEED performance standards across several aspects of the design process, including:

### LEED Performance Standards :

- ✓ Sustainable Sites
- ✓ Water Efficiency
- ✓ Materials & Resources
- ✓ Innovation in Design
