

David F. Citro, PE

CIVIL ENGINEERING DEPARTMENT MANAGER

Mr. Citro has over 18 years of professional experience in civil engineering and land development. His experience includes civil/stormwater management design, Best Management Practices design, erosion and sediment control, site grading, roadway design, storm and sanitary sewer design, municipal code analysis, ADA accessibility compliance, industrial utility relocation, NPDES permitting for stormwater construction activities, PA Act 537 sewage planning, and topographic surveying. In his experience, he has been directly responsible for project-related client, municipal, and other regulatory agency coordination, including presentations and/or representations at project-related meetings – both public and private.
