

# Leo F. Doyer, PE

## SENIOR STRUCTURAL ENGINEER

Mr. Doyer has over 20 years of professional experience in the structural engineering discipline. As a member of the design team, he helps develop structural design, while providing hands-on leadership for the design effort and creating solutions to satisfy functional, aesthetic, and budgetary requirements. He is responsible for the planning and development of structural systems, and in-process quality control on both new and existing structures. Mr. Doyer's experience includes a wide variety of projects and has addressed a wide variety of building and structure types, including high-rise and bridge crane buildings, structures that require unique considerations such as manufacturing, vibration sensitivity, progressive collapse, deflagration and portability.

### RELEVANT PROJECT EXPERIENCE

#### PFIZER

Kalamazoo, MI; Groton, CT;  
Ann Arbor, MI; Carlisle, PA

#### DUCK RIVER TEXTILES

North Brunswick, NJ

#### FIRMENICH

Plainsboro, NJ
